- Excellent communicator at all levels
- Ability to grasp issues of a business nature and assess the technical and cultural impacts
- Manage projects and project team

## ADDITIONAL SKILLS

### Teamwork

- I have been part of many teams and learnt to function effectively to achieve a common purpose. I practised and tested my teamwork skill during group projects where I have been able to forge alliances, listen, share ideas and work productively with others from different backgrounds. I have had to organise, plan, encourage, co-ordinate group activities, render and receive assistance from others.

### Initiative

- As a self motivated person, I was able to anticipate problems and resolved them methodically before they get out of hand. I suggested new ways of working and made a submission to management which was adopted and improved performance.

### Analytical

- I have developed my analytical skills through my years of study. I possess the ability to interpret information for organizational purposes. I have generated several reports and presented data in various forms.
- I performed weekly statistical analysis in previous work roles with the aid of graphs and pivot tables.

### Problem Solving

- I take a logical and determined approach and believe that problems are meant to be solved.

### Communication

- I am a good listener who observes and reads body language quite well, I prompt for feedback, use my voice well and maintain healthy eye contact at all times. I am also able to read and write effectively. I am fluent in English, Nepal and Hindi.

## INTERESTS

- I enjoy meeting new people, travelling, sports, organising events and reading.
